# King Pie Kiosk

The Kiosk is a modular system that is easy to assemble. This concept is ideally situated in passageways, under staircases and escalators in shopping centres. The design of this unit can be customised in relation to the space available as well as the access to the unit i.e. the displays can be moved around.

- Low investment cost
- High ROI
- Low overhead cost due to size and application
- Ability to increase coverage in a mall

## Specifications

### Equipment included is as follows:

- 1 x Single door beverage cooler
- 1 x Chip machine with freezer (optional)
- 2 x 1500mm Pie warmer display units
- 3 x A1 Snapper frames with branding
- 2 x Menu board snapper frames
- 1 x Work top counter with shelves
- 1 x POS Cabinet with shelves
- 1 x Partition wall with entrance door
- 1 x Hot box used to transport pies from the bake off to the Kiosk

Optional design

## Requirements

- Assembly takes 2 - 4 hours
- Footprint needed is 3m x 3m
- Power requirement from the landlord is minimum of 25 Amp, 3 phase
- King Pie branding on all four sides for visibility
- Plug points are required for equipment
- A space for an oven and freezer is required if the kiosk is not supported by a King Pie store

\* The Specifications and Requirements may change dependant on the site.
